Board reviewed road maintenance.

Bills approved and paid.

Public input: Jerald Sebesta brought it to the Board's attention that the emptied waste containers after the waste pickup are being left on the edge of the roadway. This makes it impossible to grade the road. He asked that Advanced Disposal could leave the containers in the driveways, off of the road. Garbage is also flying from the truck as the hopper is being unloaded into the truck while the truck is driving down the road. This has been brought to the Board's attention several times. Clerk will call Advance Disposal regarding these issues.

Meeting adjourned
