SPECIAL BOARD MEETING

The Town Board held a special meeting to discuss and select a consultant list for the Cardinal Avenue Rock Creek bridge replacement project. The meeting was legally noticed and posted. Present were Chairman Dale Reinart, Supervisors Ken Kuhn and Ed Kuhn, and clerk Donna Kuhn.

The Board reviewed the consultant engineering design local roster that was received from the County. A selection of 10 companies were chosen by the Board. Clerk will send solicitation letters to these companies today, September 25, 2020. Statements of Qualification will be due back to the Town by November 6, 2020. The Board will meet the following week to review qualifications of the submitting companies.

Board also discussed the beaver problems on the 4 plugged culverts on Pelsdorf. Goetz will clean the culverts out next week and panels will be put in place to prevent recurring beaver problems. Hopefully.

Meeting adjourned
Donna Kuhn, clerk
